

**Serious CCD-imagers had to wait a long time,
but now it is available: the Helix 250.**

**More details:
www.astrosystems.nl**

**The new standard
in large format CCD-imaging.**

Helix 250

Helix250 features:

- 250 mm F/3 optics
- Optimized for large format CCD-chips
- Built-in micrometer focusing or integrated robo-focusing
- Temperature-controlled
- Extremely small spot sizes
- No vignetting
- RGB-filter and H-Alpha optimized
- Optical design by Harrie Rutten
